New furniture and play equipment for the Krümelkiste: BERNER Group donates and lends a hand with the construction

The daycare center Krümelkiste in Schwäbisch Hall, Germany, can look forward to new play equipment and furnishings. The children can now try out a climbing wall and use lots of new wooden furniture, including a room divider with skill elements, a bookshelf, a chest of drawers and a cupboard for the quiet room.

The BERNER Group is behind the campaign. The family-run company from Künzelsau not only donated the equipment worth EUR 6,500, but also took care of the set-up. Five employees lent a hand on site for a whole day. After assembly, the furniture was inaugurated at a children's party. Numerous parents, grandmas and grandpas also accepted the invitation to take a closer look at the Krümelkiste's new facilities.

"We are very pleased about the great support from the BERNER Group. The Krümelkiste shines in new splendor," summarizes Milan Hartmann, board member of the association Familienforum Schwäbisch Hall, which runs the Krümelkiste. "On behalf of the children and all the members of the association, we would also like to thank the BERNER Group - especially the dedicated helpers."

Social commitment anchored in company DNA

The idea of implementing social projects across Europe was launched in 2017 to mark the BERNER Group's 60th anniversary. The decisive factor: the projects should have a long-term and sustainable impact. Whether kindergartens, schools or charitable associations – the employees lend a hand wherever they are needed.
